

CABLE COMING DEC. 1ST Approximate Date Has Been Fixed.

SAN FRANCISCO, August 22.—Mr. S. S. Dickenson, representative of the Pacific Cable Co., is staying at the Palace hotel. He is looking to return to Honolulu on the Korea, leaving here the 20th. He will probably soon go on to Guam to arrange for the cable landing there upon the same line that he has been doing at Honolulu. The cable has been finished and during the next few days the loading of it aboard the steamer will not get away from England until the first of second week in September, and the completion of the laying of the cable will accordingly be likewise postponed until approximately December 1. The terms proposed to the cable company by President Roosevelt upon which he will allow them the free use of the soundings between Honolulu and the Philippines, have not yet been accepted by the cable company, and it is not likely that they will be unless modified. The principal ground of objection is that the proposition requires the cable company to allow the government to take possession of the cable and operate it free of charge during war time. The cable company does not object to the government taking possession during war time, as the government has the right to take possession of any property under such circumstances, necessary for carrying on the war; but they do not see the justice of requiring them to surrender their property for an indefinite period without compensation. It would be cheaper for the company to make their own soundings.

Another minor point is the requirement that the operators shall all be American citizens. It is a fact that in the United States the Morse system is used exclusively, whereas all foreign telegraph and cable companies, as well as all of the American cable companies across the Atlantic, use the International system of signals, which is entirely different. Very few Americans have learned the International system, and in case an American operator of the cable on the Asiatic side should be disabled or unobtainable a foreign operator could readily be picked up, while the restriction to American citizens would endanger the whole operation of the cable. The company are still in hopes that a modification of the requirements by the government will be made. If not, there will probably be an additional delay in laying the cable beyond Honolulu, but this will not affect the laying of the San Francisco-Honolulu section.

PUNAHOU TEACHERS.
Mr. Griffiths, the new president of Oahu College, accompanied by his wife, is at the Occidental. They are looking to go to Honolulu by the Korea, which will land them in Honolulu on the 4th or 5th of September, in ample time for the opening of the institution on the 15th. Two other teachers newly engaged by Mr. Griffiths will follow him on the Sonoma, leaving September 4. Miss Hassforth, who has been spending the summer in and about San Francisco, also returns on the Sonoma.

THE FULLERTON.
The Fullerton, the Union Oil Company's first tank vessel, after a number of delays, finally sailed for Kihohu on Tuesday last, carrying a load of a little less than 1,000 barrels of fuel oil. It is noteworthy that the Fullerton is the largest and most expensive wooden ship ever built on the Pacific coast; that she was built for a California company by a California shipbuilding company, almost exclusively of California materials; was christened with a California name, by a California native daughter, and will handle only California products; all of which goes to show that with all its modesty, California is getting there all the same.

FRUIT SHIPMENTS FROM HILO.
The steamer Enterprise arrived this week from Hilo with a shipment of several hundred bunches of bananas and quite a number of boxes of alligator pears. A few of the bananas were sewed up in gunny sacks and these were all in bad condition. Those wrapped in banana leaves were all without exception, in good condition. The pears were mostly packed in large boxes, which contained several hundred pears each, and the pears were not wrapped. The result was that as the pears ripened they were crushed by the weight of the others, so that none of any were in good condition. A few of the packages were thin boxes containing only two or three layers of pears and the fruit was wrapped in paper. These, as a rule, arrived in good shape, although quite a number were so green that they were worthless. It cannot be too strongly impressed upon the Hilo people that they will be wasting their money by sending alligator pears unwrapped and in large boxes. They should be packed so that if possible the pears will not come in contact with each other and will have no weight resting upon them. This can be accomplished by wrapping each pear in double layer of paper or grass or leaves and having a partition of some kind between each layer of pears rigid enough to keep the next layer from resting upon the one beneath. Good pears bring a fancy price in the San Francisco market, as they retail at the way up to 75c apiece. Care in sending only fully matured fruit and in packing well to secure these prices, while failure to do so will result in absolute loss. XXX.

(From Another Correspondent.)
SAN FRANCISCO, Aug. 23.—Thinking a few items from this busy mart might be of interest to your many readers, I send you the following.
The all absorbing topics in this city for several days past have been the arrival and entertainment of the

KING TO CALL ON KAISER

BERLIN, Aug. 22.—Gilded masks surrounded by extravagant crowds are being set up along the Kaiser's route in preparation for the entry into Berlin of King Victor Emmanuel of Italy, Thursday next. The Kaiser-London railway is being hurried throughout its length by long rows of gilded masks. The program for the King's entertainment, which includes receptions, state dinners and a daily performance at the opera, ends on Saturday with the great Fall parade of troops on the Tempelhof field.

The object of King Victor Emmanuel's visit, as explained at the Italian Embassy, is that the young King is simply making his first call since his accession upon his friend, the Emperor, that such was the only purpose of his visit to Russia, and that it is quite probable that the King will visit France next year. Austria is not likely to be visited by King Victor Emmanuel for the reason that Emperor Francis Joseph had never returned the late King Humbert's visit to Vienna because he wished to avoid offending the Vatican by seeing King Humbert in Rome.

As King Victor Emmanuel on his visit to Berlin will be attended by the Italian premier, Signor Zanardelli, the relations between Italy and Germany will, naturally, be discussed, but anything approaching negotiations with a definite object, growing out of the question of King Victor Emmanuel's disarmament proposals, 227 for the Emperor's personal ear, and are not official, and the fruitfulness of making them is well understood by the Ministers here. As for the rest, the Berliners are looking forward to a brilliant show, and officialdom anticipates a wearisome series of functions, which it must attend.

HUNDRED MILE AN HOUR CARS

NEW YORK, Aug. 23.—An electrical company at Lynn, Mass., is building a train which is soon to be used in Illinois, says a special dispatch from Lynn and which the engineers estimate will make ninety to one hundred miles an hour.

It is added that the track for the train in Illinois is almost completed; that the line is about 150 miles long and is remarkable for solidity and strength. As far as possible grades have been eliminated. Electricity will be the motive power and the third rail system will be used.

A train of three cars has been built for the first trials. The train will be equipped with twelve motors of 120 horse-power each. Instead of the high speed increasing the danger, it is claimed that the train will be safer and run less risk of leaving the rails than an ordinary street car.

The theory held by electricians is that the train is practically electrically welded to the track and cannot leave it while the power is on. The location of the track is not given.

Knights of Pythias and the attack upon the administration of State Governor Gage. The convulsion of the Knights of Pythias, 50,000 guests were expected, and although the actual number fell short, still there was no relaxation in the city's efforts to entertain. I understand that \$20,000 were raised and expended for that purpose. A notable feature of the display made for the entertainment were the electrical illuminations extending from the pier building to beyond Tenth street, exceeding anything ever attempted in the country outside of the display of the Pan-American at Buffalo. Considerable in the display was the pyrotechnic, the Call building and the City Hall building. These buildings were equal in design and beauty of effect to many of the principal buildings of the Pan-American. In addition there was the wonderful canopy design at the intersection of Third, Kearny and Main streets.

Honoluluans are greatly in evidence throughout the city. Rear Admiral Merry, Dr. Howard and wife, left for the East by the flyer on the morning of the 21st. Rev. Mr. Kincaid has taken private apartments on Sutter street. Mr. G. P. Castle and family are on the same street. A. P. Cooke and family are in Oakland. Franklin Austin is now connected with the Overland Monthly. Former Commissioner of Agriculture Joseph Marsden is hale and hearty, and Mr. James F. Morgan has greatly improved in health since his visit to the coast. The Wilcox brothers, B. F. Dillingham and family, Mr. Robert Lewers and family and many other kamaeians are at the Occidental. Mr. W. C. Weedon has been quite active with his lectures and has met with overcrowded houses.

THE KOREA.
This leviathan of the Pacific arrived in port and docked on the 11th. She is due to sail for the Orient via Honolulu on the 20th inst. and many of the Honolulu people have looked to sail by her. It may be of interest for your readers to have some of the measurements of this grand boat. A gross tonnage of 12,600, length 572 feet, beam 63 feet and mean draft 27 feet. The crew had the pleasure of going over the vessel soon after reaching port, and the trimmings and furnishings are plain, but substantial and uniform. Her cabins are fitted up for 220 passengers and the dining saloon has seating for over 200 at first table. The beautiful bronze staircase is something unique in itself and exceedingly appropriate to the general finish of the magnificent boat. I find the staterooms to be quite roomy, high between decks, with air tube ventilators for the lot or take up of foul air. The suites, of which there are four sets, are complete in their furnishings and comfort, and suggest all the luxuries of travel that can be conceived. The social hall is unique in itself and entirely different from anything of the kind I have visited. The advent of this vessel in the Pacific will revolutionize ocean travel to the Orient, and we predict that this boat will bring about many progressive improvements for the comfort of passengers in other competing lines. "COSMO."

ROOSEVELT SPEAKS ON TRUSTS

Important Address Made to Republicans of Connecticut During His New England Tour.

WILLIMANTIC, Conn., Aug. 23.—President Roosevelt, after spending the night at the home of John T. Robinson, at Hartford, today resumed his journey through New England. His train left that city promptly at 6 o'clock, but the early hour set for his departure did not deter the people from turning out in force and giving him a hearty send-off. As he drove up to the station in an open carriage accompanied by Senator Platt, the crowd cheered and the President responded by raising his hat.

The floral horseshoe presented to the President by the workmen of Hartford yesterday was by his request placed on the engine. All along the line the small towns turned out their entire population, each apparently anxious to share in the welcome which Connecticut is extending.

When Willimantic was reached the President was driven to the public square, where he delivered an address from his carriage. Following are the President's remarks:

THE PRESIDENT'S SPEECH.

"We are passing through a period of great material prosperity and such a period is as sure as adversity itself to bring multitudes of discontent. At a time when most men prosper somewhat it always happens that a few men prosper greatly, and it is as true now as it was when the Tower of Babel fell upon all who were under it, that good fortune does not come only to the just nor bad fortune only to the unjust. When the weather is good for crops it is also good for weeds. Moreover, not only do the wicked flourish when the times are such that most men flourish, but what is worse, the spirit of envy and jealousy and hatred springs up in the breasts of those who, though they may be doing fairly well themselves, yet see others who are no more deserving than they are for wealth. Moreover, not only do the wicked flourish when the times are such that most men flourish, but what is worse, the spirit of envy and jealousy and hatred springs up in the breasts of those who, though they may be doing fairly well themselves, yet see others who are no more deserving than they are for wealth. Moreover, not only do the wicked flourish when the times are such that most men flourish, but what is worse, the spirit of envy and jealousy and hatred springs up in the breasts of those who, though they may be doing fairly well themselves, yet see others who are no more deserving than they are for wealth."

"We are passing through a period of great material prosperity and such a period is as sure as adversity itself to bring multitudes of discontent. At a time when most men prosper somewhat it always happens that a few men prosper greatly, and it is as true now as it was when the Tower of Babel fell upon all who were under it, that good fortune does not come only to the just nor bad fortune only to the unjust. When the weather is good for crops it is also good for weeds. Moreover, not only do the wicked flourish when the times are such that most men flourish, but what is worse, the spirit of envy and jealousy and hatred springs up in the breasts of those who, though they may be doing fairly well themselves, yet see others who are no more deserving than they are for wealth. Moreover, not only do the wicked flourish when the times are such that most men flourish, but what is worse, the spirit of envy and jealousy and hatred springs up in the breasts of those who, though they may be doing fairly well themselves, yet see others who are no more deserving than they are for wealth."

"Now, the upshot of all this is that it is peculiarly incumbent upon us in this time of material prosperity to be on our guard against the danger of selfishness, each in his own account, to show that we possess the qualities of prudence, self-restraint and self-control. In our government, we need above all things stability, fidelity of economic policy, while the combination of these qualities of various individuals, each in his own account, to show that we possess the qualities of prudence, self-restraint and self-control.
